

PROCEEDINGS OF SPIE

Fourth International Conference on Biomedicine and Bioinformatics Engineering (ICBBE 2024)

**Pier Paolo Piccaluga
Ahmed El-Hashash
Xiangqian Guo**
Editors

**14–16 June 2024
Kaifeng, China**

Organized by
Henan University (China)

Sponsored by
Texas A&M University (United States)
Central South University (China)
Zhejiang University (China)
Xiamen University (China)
AEIC Academic Exchange Information Centre (China)

Published by
SPIE

Volume 13252

Proceedings of SPIE 0277-786X, V. 13252

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Fourth International Conference on Biomedicine and Bioinformatics Engineering (ICBBE 2024), edited by
Pier Paolo Piccaluga, Ahmed El-Hashash, Xiangqian Guo, Proc. of SPIE Vol. 13252,
1325201 · © 2024 SPIE · 0277-786X · doi: 10.1117/12.3047895

Proc. of SPIE Vol. 13252 1325201-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *Fourth International Conference on Biomedicine and Bioinformatics Engineering (ICBBE 2024)*, edited by Pier Paolo Piccaluga, Ahmed El-Hashash, Xiangqian Guo, Proc. of SPIE 13252, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Publication of record for individual papers is online in the SPIE Digital Library.

SPIE. DIGITAL LIBRARY
SPIDigitalLibrary.org

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

ix *Conference Committee*

INTELLIGENT DIAGNOSIS AND MEDICAL IMAGE ANALYSIS

- 13252 02 **pH-sensitive quantum dots-based fluorescent array for detection of biogenic amines**
[13252-19]
- 13252 03 **4mCMS: a deep learning framework based on the multiscale encoding strategy to predict 4mC binding sites** [13252-13]
- 13252 04 **Hand gesture recognition based on electromyography signals and BP neural network**
[13252-79]
- 13252 05 **Digital interpretation of tai chi basic skills based on surface electromyography feature analysis** [13252-42]
- 13252 06 **A Golgi-targeted off-on fluorescent probe for visualizing pH change** [13252-51]
- 13252 07 **Composite filter-based medical image processing and its application to CT images**
[13252-23]
- 13252 08 **Low-cost ECG acquisition and processing method based on passive amplifying notch device** [13252-41]
- 13252 09 **Deep neural network-based automated assessment of skin volume in laser-damaged mice** [13252-43]
- 13252 0A **Research on the application of SIFT algorithm based on centroid constraint in liver image similarity matching** [13252-58]
- 13252 0B **Predicting microbe-disease associations via attention guided graph convolutional networks** [13252-12]
- 13252 0C **Application and development of small molecule fluorescent probes for super-resolution fluorescence imaging** [13252-56]
- 13252 0D **MSU-Net: automatic segmentation of lung infection boundaries and small lesions in CT images** [13252-37]
- 13252 0E **Study on self-photosensitized phenomena of 2,5-dimethylphenacyl esters** [13252-85]
- 13252 0F **Lossless compression algorithm of medical image based on weighted template matching prediction** [13252-26]
- 13252 0G **Multimodal ultrasound image-based recognition for vascular diseases in infants and young children** [13252-48]

- 13252 OH **Research on the construction of viscera state diagnosis and treatment knowledge map based on Neo4j** [13252-46]
- 13252 OI **Pulmonary bronchial segmentation scheme based on 3D UX-Net** [13252-106]
- 13252 OJ **Lung tumor image fusion based on VGG19-GAN** [13252-28]
- 13252 OK **Medical imaging application of optical fiber photoacoustic transducer based on candle soot carbon nanoparticles** [13252-53]
- 13252 OL **Exploring the topographical and time-frequency representations of electroencephalography (EEG) for inner speech decoding** [13252-86]

BIOLOGICAL DATA ANALYSIS AND MACHINE LEARNING APPLICATION

- 13252 OM **Numerical study of thermal ablation of atherosclerosis plaque based on PID controller** [13252-15]
- 13252 ON **Identification of potential prognostic markers on estrogen receptor status of breast cancer by combining metabolomics and RNA-seq data** [13252-3]
- 13252 OO **Mechanisms of the effect of farrerol on spinal cord injury in mice: insights from bioinformatics and cell experiments** [13252-29]
- 13252 OP **A graph structure clustering-based spatial-temporal graph convolutional network model for autism spectrum disorder classification** [13252-17]
- 13252 OQ **Biomechanical assessment of axial and inclined design with different implant positions in full-arch implant restoration** [13252-89]
- 13252 OR **A method for analyzing sleep stage characteristics based on complex networks and very short-term heart rate variability** [13252-68]
- 13252 OS **Association analysis of ordinal traits in generalized partial linear cumulative logistic models** [13252-9]
- 13252 OT **Impact of gamma model-based harmonization on PET tissue classification** [13252-24]
- 13252 OU **Harnessing XGBoost for robust biomarker selection of obsessive-compulsive disorder (OCD) from adolescent brain cognitive development (ABCD) data** [13252-40]
- 13252 OV **Research on the deep learning study of left ventricle CT segmentation** [13252-73]
- 13252 OW **Neuroconnectomics fusion: advancing Alzheimer's disease classification through the integration of GCN-MLP and multifeatured fMRI analysis** [13252-7]
- 13252 OX **Bioinformatics-based microsatellite DNA data mining and analysis** [13252-36]
- 13252 OY **Methodological insights into the assembly and validation of USP22 complexes via the PQLink vector suite** [13252-2]

- 13252 0Z **Research on genome data recognition and analysis based on Louvain algorithm**
[13252-107]
- 13252 10 **Establishing rapid and efficient plant regeneration for poplar 741 through cluster seedling differentiation** [13252-77]
- 13252 11 **A neural network based on knowledge distillation for classification of lung cancer with missing modalities** [13252-55]
- 13252 12 **Development of automated visual quality tracking information system for central sterile supply department based on IoT technology** [13252-62]
- 13252 13 **Rehabilitation movement evaluation technique based on three-dimensional coordinate data** [13252-101]
- 13252 14 **Data augmentation for schizophrenia diagnosis via vision transformer-based latent diffusion model** [13252-91]
- 13252 15 **Exploring the potential mechanisms of *Galla chinensis* in anti-breast cancer using HS-SPME-GC-MS and bioinformatics** [13252-10]
- 13252 16 **MoSwformer: a transformer-based patient classification model using multiomics data**
[13252-75]

BIOLOGICAL CELL ANALYSIS AND MOLECULAR PREDICTION TECHNOLOGY

- 13252 17 **Progress in the application of stem cell-loaded scaffolds promoting oral and maxillofacial tissue regeneration** [13252-20]
- 13252 18 **GYS2 is correlated with immune infiltration and prognostic outcomes in hepatocellular carcinoma** [13252-33]
- 13252 19 **Initial identification and analysis of the gene responsible for 2-hydroxyisoflavanone dehydratase in tobacco (*Nicotiana tabacum*) and its expression pattern** [13252-8]
- 13252 1A **Research on deep learning-based blood cell detection method** [13252-69]
- 13252 1B **TCGA database-based determination of prognostic genes associate with immunity in TSCC** [13252-50]
- 13252 1C **CTAG using GNN for GWAS analyses of schizophrenia to identify disease-associated genes and repurpose drugs** [13252-21]
- 13252 1D **Direct conversion of B cells to megakaryocyte-like cells** [13252-88]
- 13252 1E **DNA cascading circuits based on combinatorial strand displacement** [13252-80]
- 13252 1F **Genomic prediction method based on channel spatial attention mechanism** [13252-103]
- 13252 1G **Structural stability-aware deep learning: advancing RNA secondary structure prediction**
[13252-44]

- 13252 1H **A study of the interaction between the sex ratio of the sevengill eel population and the ecosystem based on the Volterra model** [13252-92]
- 13252 1I **Research on mutant proteins based on AlphaFold model** [13252-32]
- 13252 1J **Screening and identification of extracellular polysaccharide-producing bacteria from waste tea residues and genome-wide analysis** [13252-104]
- 13252 1K **Fabrication and application of microfluidic device for 3D cell culture based on double-layer lithography** [13252-35]
- 13252 1L **Cloning, expression and sequence analysis of hydrazine synthase A-subunit (*hzsA*) functional gene from anammox bacteria** [13252-72]
- 13252 1M **Long noncoding RNA expression profile in EV71-infected patients with hand, foot, and mouth disease** [13252-5]
- 13252 1N **DPPred-indel:a pathogenic inframe indel prediction method based on biological language models and fusion of DNA and protein features** [13252-67]
- 13252 1O **ResSepDTAF: improving protein-ligand binding affinity predictions with residual separable convolutions and sequence-structural integration** [13252-30]
- 13252 1P **DL BBBP: blood-brain barrier permeability prediction based on molecular property using deep learning** [13252-76]
- 13252 1Q **A deep learning model of BACE-1 inhibitors to reveal molecular interactions using graph neural networks and convolutional neural networks** [13252-52]

MEDICAL TECHNOLOGY INNOVATION AND CLINICAL APPLICATION

- 13252 1R **An explored analysis of CircRNAs potential regulation for prostate cancer risk** [13252-16]
- 13252 1S **Investigating the potential molecular mechanisms of *Salvia miltiorrhiza* Burge in the treatment of long COVID: a bioinformatics approach** [13252-78]
- 13252 1T **Beyond basic research: recent clinical research breakthroughs in GIP and GLP1** [13252-31]
- 13252 1U **A novel spatiotemporal filter for high-density EMG signals classification-based myoelectric control** [13252-25]
- 13252 1V **MPC1 is down-regulated in lung cancer and associated with immune infiltration** [13252-27]
- 13252 1W **Technological validation meta-analysis of TB clinical etiological diagnostic item in China** [13252-65]
- 13252 1X **Exploring the effects and molecular mechanisms of pterostilbene on schizophrenia based on network pharmacology and molecular docking** [13252-108]
- 13252 1Y **Analysis of the association between tongue coating microbiota and clinical symptoms** [13252-64]

- 13252 1Z **Research on the quality control for PET/MR based on new industry standard** [13252-70]
- 13252 20 **Chronic disease monitoring system based on RT-Thread** [13252-11]
- 13252 21 **Research on clinical auxiliary diagnosis decision support system based on computer technology** [13252-61]
- 13252 22 **Centrifugal microfluidic chip for multistep fluid control at low rotational speed** [13252-59]
- 13252 23 **Prediction of synergistic effects of drug combinations for cancer treatment based on multilevel information fusion** [13252-66]
- 13252 24 **Towards IoT-based medical waste management and tracking system in healthcare institutions** [13252-63]
- 13252 25 **Meridian-oriented abdomen acupoint detection and localization** [13252-49]
- 13252 26 **Analysis of temperature effects on plethysmography testing box and research on box pressure correction method** [13252-18]
- 13252 27 **Risk stratification in nasopharyngeal carcinoma patients: application of co-occurrence matrix and centrality analysis in prognostic evaluation** [13252-87]
- 13252 28 **Predicting microRNA-disease association by autoencoder and extreme gradient boosting** [13252-6]
- 13252 29 **Effect of positive psychological intervention based on PERMA model on subjective well-being of nursing undergraduates** [13252-98]
- 13252 2A **Hf-MOF biosensor for prostate antigen detection** [13252-39]
- 13252 2B **Adaptive clustering of IMU-based gait models for personalized clinical gait analysis** [13252-90]
- 13252 2C **MT-HTI: a novel approach based on metapath2Vec and transformer for herb-target interaction prediction** [13252-74]

Conference Committee

Conference General Chairs

Pier Paolo Piccaluga, Bologna University (Italy)
Davide Gibellini, University of Verona (Italy)

Technical Program Committee Chairs

Liansheng Wang, Xiamen University (China)
Vinayak Adimule, Angadi Institute of Technology and Management
(India)
Zhiyong Luo, Central South University (China)

Publication Chairs

Xiangqian Guo, Henan University (China)
Ahmed El-Hashash, Texas A&M University (United States)

Conference Organizing Committee

Zhifeng Peng, Henan University (China)
Chaokun Yan, Henan University (China)
Aly El Sheikha, University of Ottawa (Canada)
Chongyang Liang, Jilin University (China)
Junsong Wang, Tianjin Medical University (China)
Jun Sang, Chongqing University (China)
Wei Gong, Guangzhou University of Chinese Medicine (China)
Guosen Zhang, Henan University (China)
Longxiang Xie, Henan University (China)
Zhongyi Yan, Henan University (China)
Muhammad Ilyas, Kohsar University Murree (Pakistan)

Technical Program Committee

Ahmed El-Hashash, Texas A&M University (United States)
Ahmad Arzani, Isfahan University of Technology (Iran)
Walid Elfalleh, University of Gabes (Tunisia)
Ning Ma, Rikagaku Kenkyūsho (Japan)
Antonio Bevilacqua, University of Foggia (Italy)
Dingqiang Chen, Southern Medical University (China) and Zhujiang
Hospital (China)
Moutong Chen, Guangdong Institute of Microbiology (China)
Yang Deng, Qingdao Agricultural University (China)
Eugenio Demartini, University of Milan (Italy)

Vajiheh Fadaei, Islamic Azad University (Iran)
Anna Gaviglio, University of Milan (Italy)
Zhanmin Liu, Shanghai University (China)
Jafar Mohammadzadeh, Sari Agricultural and Natural Resources
University (Iran)
Jun Sang, Chongqing University (China)
Xuemei Du, Tongji University (China)
Muhammad Salman, Abasyn University Peshawar (Pakistan)
Mohammad Ashfaq, Chandigarh University (India)

Conference Procedure Committee

Meihua Mo, South China Agricultural University (China)
Xihong Zhao, Wuhan Institute of Technology (China)
Weirong Yao, Jiangnan University (China)
Zhenbo Xu, South China University of Technology (China)
Ling Yang, The First Affiliated Hospital of Guangzhou Medical
University (China)
Guangchao Yu, The Center of Clinical Laboratories of The First
Affiliated Hospital of Jinan University (China)
Wenjian Yang, Nanjing University of Finance & Economics (China)
