

PROCEEDINGS OF SPIE

Organic and Hybrid Light Emitting Materials and Devices XXIII

Chihaya Adachi
Jang-Joo Kim
Franky So
Editors

11–13 August 2019
San Diego, California, United States

Sponsored and Published by
SPIE

Volume 11093

Proceedings of SPIE 0277-786X, V. 11093

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Organic and Hybrid Light Emitting Materials and Devices XXIII, edited by
Chihaya Adachi, Jang-Joo Kim, Franky So, Proc. of SPIE Vol. 11093, 1109301
© 2019 SPIE · CCC code: 0277-786X/19/\$21 · doi: 10.1117/12.2551450

Proc. of SPIE Vol. 11093 1109301-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Organic and Hybrid Light Emitting Materials and Devices XXIII*, edited by Chihaya Adachi, Jang-Joo Kim, Franky So, Proceedings of SPIE Vol. 11093 (SPIE, Bellingham, WA, 2019) Seven-digit Article CID Number.

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v	<i>Authors</i>
vii	<i>Conference Committee</i>

DEVICE PHYSICS II

11093 0L	Impacts of degradation on annihilation and efficiency roll-off in organic light-emitting devices [11093-18]
----------	--

DEVICES AND PROCESSING I

11093 0P	Multiscale study of the effects of the flemion polymer as PSS:PEDOT additive [11093-23]
----------	--

POSTER SESSION

11093 28	The influence of the electron transport and emission layers on the morphological instability of QDLEDs [11093-82]
11093 2A	Influence of deposition rate on hole transport layer morphology and its effect on the electroluminescence stability of phosphorescent organic light emitting devices [11093-84]

Authors

Numbers in the index correspond to the last two digits of the seven-digit citation identifier (CID) article numbering system used in Proceedings of SPIE. The first five digits reflect the volume number. Base 36 numbering is employed for the last two digits and indicates the order of articles within the volume. Numbers start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B...0Z, followed by 10-1Z, 20-2Z, etc.

Conference Committee

Symposium Chairs

Zakya H. Kafafi, Lehigh University (United States)
Ifor D.W. Samuel, University of St. Andrews (United Kingdom)

Conference Chairs

Chihaya Adachi, Kyushu University (Japan)
Jang-Joo Kim, Seoul National University (Korea, Republic of)
Franky So, North Carolina State University (United States)

Conference Program Committee

Wolfgang Brütting, Universität Augsburg (Germany)
Lay Lay Chua, National University of Singapore (Singapore)
Malte C. Gather, University of St. Andrews (United Kingdom)
Hironori Kaji, Kyoto University (Japan)
Ji-Seon Kim, Imperial College London (United Kingdom)
Tae-Woo Lee, Seoul National University (Korea, Republic of)
Jian Li, Arizona State University (United States)
Dongge Ma, South China University of Technology (China)
Andrew P. Monkman, Durham University (United Kingdom)
Jongwook Park, Kyung Hee University (Korea, Republic of)
Yong-Jin Pu, RIKEN Center for Emergent Matter Science (Japan)
Barry P. Rand, Princeton University (United States)
Sebastian Reineke, Technische Universität Dresden (Germany)
Ifor D. W. Samuel, University of St. Andrews (United Kingdom)
Joseph Shinar, Iowa State University of Science and Technology
(United States)
Ken-Tsung Wong, National Taiwan University (Taiwan)
Chung-Chih Wu, National Taiwan University (Taiwan)
Seunghyup Yoo, KAIST (Korea, Republic of)

Session Chairs

- 1 OLED Materials I
Chihaya Adachi, Kyushu University (Japan)
Jang-Joo Kim, Seoul National University (Korea, Republic of)
- 2 OLED Materials II
Chihaya Adachi, Kyushu University (Japan)
Jang-Joo Kim, Seoul National University (Korea, Republic of)

- 3 Device Physics I
Ken-Tsung Wong, National Taiwan University (Taiwan)
Hironori Kaji, Kyoto University (Japan)
- 4 Device Physics II
Ken-Tsung Wong, National Taiwan University (Taiwan)
Hironori Kaji, Kyoto University (Japan)
- 5 Devices and Processing I
Bin Hu, The University of Tennessee Knoxville (United States)
Andrew P. Monkman, Durham University (United Kingdom)
- 6 Devices and Processing II
Bin Hu, The University of Tennessee Knoxville (United States)
Andrew P. Monkman, Durham University (United Kingdom)
- 7 Devices and Processing III
Ji-Seon Kim, Imperial College London (United Kingdom)
Tyler Fleetham, Universal Display Corporation (United States)
- 8 Lighting and Out-Coupling
Ji-Seon Kim, Imperial College London (United Kingdom)
- 9 Perovskites I
Barry P. Rand, Princeton University (United States)
Tae-Woo Lee, Seoul National University (Korea, Republic of)
- 10 Perovskites II
Barry P. Rand, Princeton University (United States)
Tae-Woo Lee, Seoul National University (Korea, Republic of)
